Gene was very detailed, personal, and professional, taking his time to ensure the inspection was thorough. He even took time to walk my wife, realtor, and me through his finding. I give him 5 stars and highly recommend him to anyone needing a home inspection. Of the 5 times I have bought homes, Gene was by far the best inspector I've had. Gene, being a veteran, makes supporting high quality service with a good review a "feel good" time as well.

We used Gene Inspections to inspect an older home during inspection period. He was available the next day and arrived on time and was very detailed and informative during the inspection and with his report. He is very professional and brings along all of the tools needed to adequately do the job. If we ever need another inspection done we will definitely call Gene Inspections again.

I have had the pleasure of working with Mr. Goodwin of Gene Inspections as he performed a complementary inspection service on our Kingwood home in November of 2016. I have worked for years in General contracting as a project superintend and was curious to see how well he would do knowing my own home as well as I do. I was extremely impressed with his approach and his attention to detail. His process of inspection is not rushed, but rather a highly insightful and documented procedure. Mr. Goodwin's inspection report was very detailed and informative. He has performed with excellent skill and high marks on which I am quite impressed. I would not hesitate to recommend him for an inspection well done.

Gene showed up promptly at the time that we scheduled. He was very informative and professional throughout. He took the time to explain certain areas that were on his report and advised my wife and I how those areas would need to be attended to in the future. His report was instrumental in our final negotiations. I was glad that we used Gene's services as he was quite

thorough.

Gene assisted me during my first home purchase. His experience and expertise made the process much less stressful. The report he compiled and provided was descriptive. He also made himself available via his cell phone for my last minute questions! On time, friendly and competitive price! I STRONGLY recommend using Gene for your next home purchase!

Was very professional and explained everything thoroughly. Took his time with us to make sure that we understood all issues. If I need another inspection I will use him again.
